

## **WorldVocab's™ Quick Vocab™ Spanish: Common Vocabulary II**

This vocabulary lesson contains 500 common vocabulary terms. Each word is spoken by a native of that language to guarantee authentic pronunciation. The English is spoken by a female from Midwestern US and the Spanish vocabulary is spoken by a woman native to Cuba. However, the spoken and written translations are made with US and International Spanish in mind. This audio category is not intended to teach grammar, just vocabulary.

### **Format and Instructions for Use:**

The audio vocabulary starts with each word being spoken in English then Spanish. Each word has a two second pause in between to allow you to speak the word out loud. The word pairs repeat once so that the word can be heard and spoken out loud twice in a row. This will help with memory retention and give you multiple attempts to practice the pronunciation and to memorize the vocabulary.

Begin the audio file and follow along with this PDF. After the English word is heard, speak that word in the following two second pause. Do the same for the Spanish word. What this will do is create mental connections linking those two words in your mind and create visual and auditory memory. This method will ultimately help you memorize the vocabulary, learn proper native pronunciation, and learn gender articles. Another important skill this vocabulary will train is ones ability to recognize the word and recall its definition during conversation with a native speaker.

## Quick Vocab™ Spanish: Common Vocabulary II - Follow Along Guide

**Common Vocabulary II - English to Spanish - Part I**

| English       | Spanish          |
|---------------|------------------|
| to cope with  | hacer frente a   |
